EQUIPO COMBINADO ELEC.+ULT. (26 FO.) – EL.25-ELUT

EQUIPO COMBINADO ELEC.+ULT. +LAS. (30 FO.) – EL.26-ELUT

Equipo para uso combinado o independiente de electroterapia (2 canales) y ultrasonidos 1/3 Mhz (1canal). El modelo El.26-ELUT combina además con láser (1salida).

Cabezal multifrecuencia 1/3 Mhz con control de contacto e impermeable para tratamientos debajo del agua.

Posibilidad de conectar el equipo con el equipo de terapia de vacío (EL.75-VC) para aplicaciones combinadas.
(Modelos El.24+El.25)

Voltaje: 220-240V/50-60Hz. Bajo pedido 110-127V/50-60Hz.

Electroterapia:

Funcionamiento en modo CC y VC.

Curva I/T con posibilidad de comparar los valores al inicio y al fin del tratamiento.

Erogación de todas las corrientes de media y baja frecuencia.

Ultrasonidos:

Potencia de salida 0-2 Wcm² en modo continuo y de 0-3 Wcm² en modo pulsátil.

Láser:

905 nm.

EL.24-ELUT

16 Formas de onda (baja y media frecuencia)

50 sugerencias terapéuticas (electroterapia y ultrasonidos).

EL.25-ELUT

26 Formas de onda (baja y media frecuencia)

200 sugerencias terapéuticas (electroterapia, ultrasonidos, protocolos combinados).

Lector de tarjeta de memoria. 100 programas memorizados y 200 programas libres en cada tarjeta.

EL.26-ELUT

30 Formas de onda (baja y media frecuencia)

400 sugerencias terapéuticas (electroterapia-ultrasonidos, ultrasonidos-protocolos combinados).

Usb 4Gb. 400 programas memorizados y 400 programas libres en cada tarjeta.

Accesorios incluidos EL.24-ELUT: 1 cabezal multifrecuencia 1/3 MHz área emisora 5 cm ² con sensor de contacto 4 electrodos 60x85 mm. 4 esponjas para electrodos 60x85 mm. 4 electrodos 50x50 mm. 4 esponjas para electrodos 50x50 mm. 2 fajas elásticas 1000 mm. 2 fajas elásticas 600 mm. COMBINED UNIT ELEC.+ULT. (16 WF.) – EL.24-ELUT

COMBINED UNIT ELEC.+ULT. (26 WF.) – EL.25-ELUT

COMBINED UNIT ELEC.+ULT.+LAS. (30 WF.) – EL.26-ELUT

This equipment can be used to administer electrotherapy (2 channels) and ultrasound at 1.3 MHz (I channel) in combination or separately. Model El.26-ELUT also combines laser (1 output).

Multi-frequency head operates at 1.3 MHz with contact control, waterproof for administering treatment under water.

Option to connect the unit to the vacuum therapy unit (EL. 75-VC) for combined applications (Models El.24+El.25).

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

Electrotherapy:

AC and DC operating modes.

I/T curve with the capability to compare the values at the start and finish of the treatment.

Distribution of all medium and low frequency currents.

Ultrasound:

Output of 0-2 Wcm² in continuous mode and 0-3 Wcm² in pulse mode.

Laser:

905 nm.

EL.24-ELUT

16 wave forms (low and medium frequency).

Over 500 suggested therapeutic applications (electro-therapy and ultrasound)

EL.25-ELUT

26 wave forms (low and medium frequency).

Over 100 suggested therapeutic applications (electro-therapy, ultrasound, combined protocols).

Memory card reader. 100 programs in memory + 200 free programs on each card.

EL.26-ELUT

30 wave forms (low and medium frequency).

Over 400 suggested therapeutic applications (electrotherapy-ultrasound, ultrasound-combined protocols).

Usb Key 4Gb. 400 programs in memory + 400 free programs on each card.
